MAINTENANCE-FREE
LIGHT POLE BASE COVER

MATERIAL PROPERTIES

- Manufactured from 100% Polypropylene. 100% recyclable.
- Excellent resistance to organic solvents, degreasing agents, acids, alkali, organic solvents, and is stain resistant.
- Impact resistant
- Easily cleaned with environmentally friendly cleaners.
- Ultraviolet additive maintains color intensity and high visibility.
- Foam inserts give progressive resistance, offering soft protection for slight bumps, and more resistance when needed to absorb harder collisions.

ORDERING INSTRUCTIONS

1. Verify if Polector can fit diameter of light pole base. Polector can cover round bases up to 24” and square bases up to 18” x 18”.
2. Determine if you need a shorter, or taller unit. Standard unit is 4-rings high, 41.27”.
3. Specify square or round pole. We will custom cut top opening to your specification. Cut out will be .125” larger than the size of the light pole.*

*Contractor is responsible for providing accurate dimensions.

INSTALLATION INSTRUCTIONS

INSTALLED IN MINUTES
WITHOUT THE USE OF TOOLS
