

POWERED DRUM EQUIPMENT

FROM VESTIL MANUFACTURING

SEMI-ELECTRIC POWERED DRUM GRIPPER

A semi-electric drum gripper and rotator provides a simple way of transferring and moving drums. With a walk-behind style, the two handle design allows the user to prompt control when pushing the unit into position. Once in place, the gripping and rotating mechanisms are battery-operated for consistent strength during the loading and unloading process. Multiple drum sizes (16, 30 and 55 gallon steel drum) are accepted for use in a variety of settings.

Model No.	Overall Size (WxLxH in.)	Dispensing Height (in.)	Uniform Capacity (lbs.)	DC Powered	Wt. (lbs.)
SL-118-PDGR	35x65-3/4x79	118	550	(2) 12V Batteries	1,025

POWERED DRUM EQUIPMENT

FROM VESTIL MANUFACTURING

FULLY POWERED VERTICAL GRIPPERS/ROTATORS

The fully powered vertical grippers/rotators have a walk-behind design and single hand control that makes maneuvering products into the desired position easy. Their compact footprint allows them to fit into tight areas where other lifting devices cannot reach. An 800 lb. capacity lets users transfer more in fewer trips, maximizing efficiency. Long term battery charge allows for constant daily use without needless downtime. Units include (2) 12V lead acid batteries, integral battery charger and level gauge indicator. S-MU-VDGR-64 is for transporting drums and S-MU-VRGR-72 is designed for transporting rolls.

S-MU-VRGR-72

Model No.	Overall Size (WxLxH in.)	Dispensing Height (in.)	Acceptable Drum Types	Wt. (lbs.)
S-MU-VDGR-64	32-1/2x65x83	64	55 gallon steel drum	1,564
S-MU-VRGR-72	32-1/2x62x79-3/4	16-1/2 to 72	rolls	1,575
