

SKID STEER ATTACHMENTS

Universal mounting system. • Quick set up on new or existing skid steer and loader tractor models.

Robust, all welded steel construction. • Painted black for sleek finish.

BUCKETS

Standard Features:

- Low and high profiles available.
- Lightweight, yet high strength.
- Wear resistant, high carbon cutting edge.
- Reinforced bottom plate and sides.
- Anti-slip step on top edge.

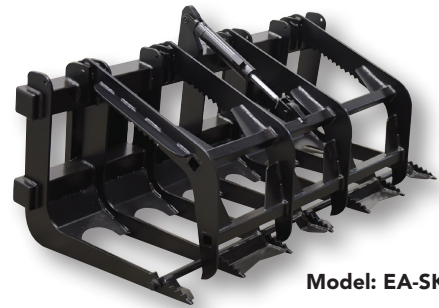

Model: EA-SKSB-72-LP

GRAB BUCKETS

Standard Features:

- Design works well in a variety of environments.
- Designed for clearing brush, overgrown shrubbery, logs, and rocks.
- Open grate style bottom allows debris and other loose material to fall through.

Model: EA-SKGB-66

ROCK GRADERS

Standard Features:

- Reinforced leading edge for digging below the surface.
- High capacity for heavy loads.
- Bar style bottom platform with 3" openings allows small material to flow through.

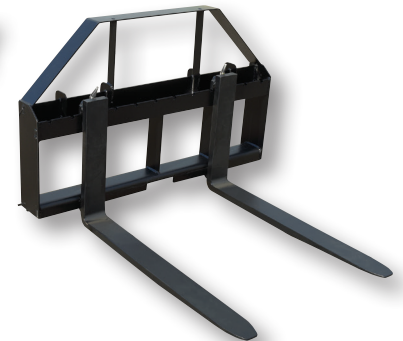

Model: EA-SKRG-60-LP

FORKS with UNIVERSAL MOUNT

Standard Features:

- Infinitely adjustable fork centers.
- High back design helps keep load from tipping toward operator.
- Open design enables quick cleaning and maintenance.

Model: EA-SKSF-F4-1.50-36
